

Learners' Standards

MODEL COMPONENT	ONLINE LEARNING COMPETENCY	RATIONALE
Checklist	1. Set realistic speculations for online study	It is very important to prioritize tasks, as well as make a cohesive learning plan and assess time and effort needed according to the requirements.
Chocolate	2. Maintain determination to achieve learning goals	Chocolate is a great motivator and give a sensation of happiness. So, it motivates the intrinsic soul which value in learning outcomes. Helps in manage negative emotions or feelings that interfere in the determination to achieve learning. I think it is very important to focus.
Planner	4. Manage time effectively	The planner represents the way I could anticipate time, effort, and the due dates for each assignment. It helps to create concrete learning plan in order to multitask responsibilities.
Mirror/ Microscope	9. Be a reflective learner	The mirror reflects what is what I want to accomplish and the microscope looks to the detail of what is important to follow to get to a higher level of learning and understanding
Turtle/speaker	12. Engage in effective online communication	The turtle represents how cautious I should be while maintaining online communication of any kind. The speakers mean that communication should be loud and clear respecting differences.

MODEL COMPONENT	ONLINE LEARNING COMPETENCY	RATIONALE
Bible	3. Comply with established ethics and standards	The Bible is followed for many due to its life ethics and standards guidance. I think it is important for instructors to follow it too.
Chart	6. Prepare for instruction	The chart is one example of the first steps to prepare for instruction. Learn to anticipate difficult questions and make sure that instruction is accessible to all.
Crown	9. Demonstrate effective facilitation skills	As the King and Queen do, grow from experience. Be able to give clear instruction and guidance. Maintain the focus of learning and prompt collaboration.
Progress report/diploma	16. Evaluate instructional effectiveness	The progress report represents the evaluation of the instruction, methods and instructor performance. The diploma represents the evaluation report and data.
Computer	18. Manage... appropriate use of technology	I think it is important to secure learners information, to share and search for information, and to store and reuse instructional materials and resources.

Instructors' Standards
